- 250, 500
- 750, 1.000
- 1.500, 2.000

RoQuadro

Roquadro are the ideal choice for above-ground or basement. Their dimensions make them **easy to transport through normal front doors** and they are also very suitable as an **outdoor rainwater collecting tank**.

Extremely smooth walls for easy cleaning and a flat bottom to ensure the stability of the tank.

Volume [L]	Code	Dimensions A x B x C [mm]	Inspection opening [mm]	Weight [kg]
250	7104103260	600 x 600 x 928	Ø300	12

ROTO WATER TANKS

- VOLUME ROBOX (L)

- 4.000, 6.000

- VOLUME ROBOX (L)

- 5.000

- PERFECT FOR HARD ROCKY SOILS

HINGED COVER

The Roterra tank lid with gasket ensures water tightness. The lid is hinged to the telescopic extension, making it easy to open.

TELESCOPIC EXTENSION

Threaded extension can be simple adjusted to the height of the terrain.

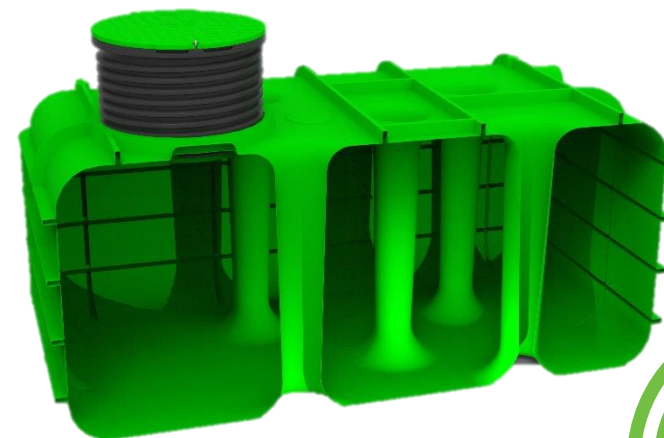

Up to 14 tanks can be transported with a semi-trailer.

REINFORCEMENT RIBS

Reinforcement ribs on both sides ensure the stability of the tank and protection in case of high water level.

WATER TANKS WITH DRY CHAMBER

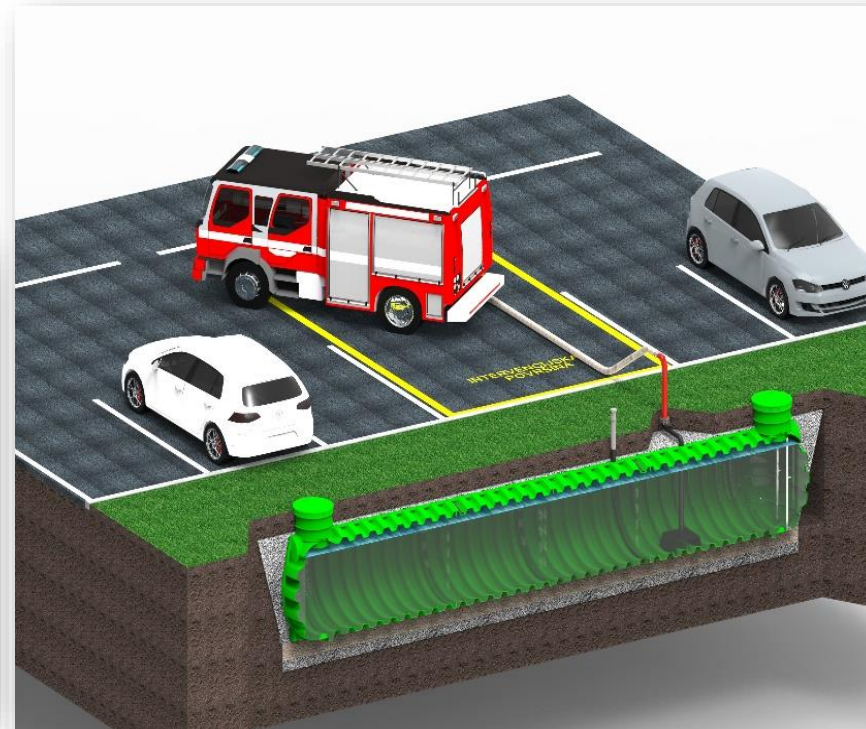

Exact position of connections can be arranged on the tank with Roto technical team. The necessary PE connections in the tank will be installed by us directly in the factory.

- Dry chamber for dry pumping stations
- Additional ladder with walking area on bottom
- Flange connections by project

FIRE WATER SYSTEMS

- Systems from 20.000 L
- With additional equipment
- Standard DIN 14320

FIRE WATER SYSTEMS – ADDITIONAL EQUIPMENT

- Suction pipe Type-A (stainless steel)
- Suction baskets

ROTO TECHNICAL SUPPORT

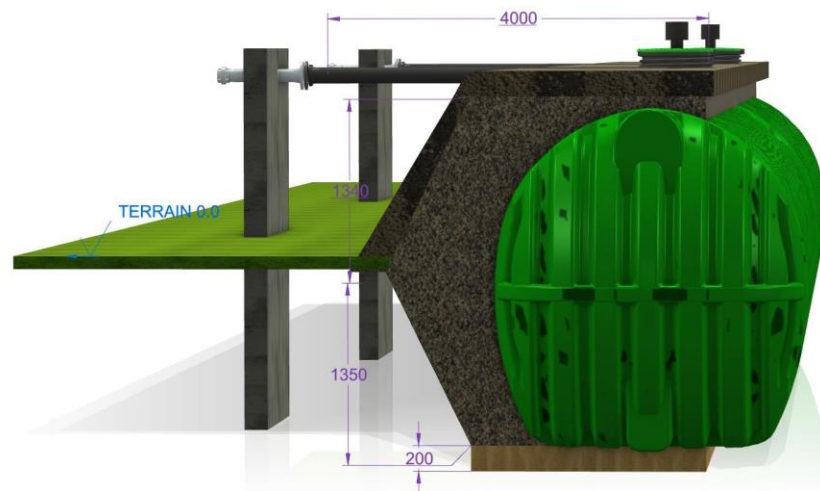

- Green parking lot in Slovenska Bistrica
- 6 x 50.000 L buffer tank + shafts
- LOCATION: Slovenska Bistrica, Slovenia

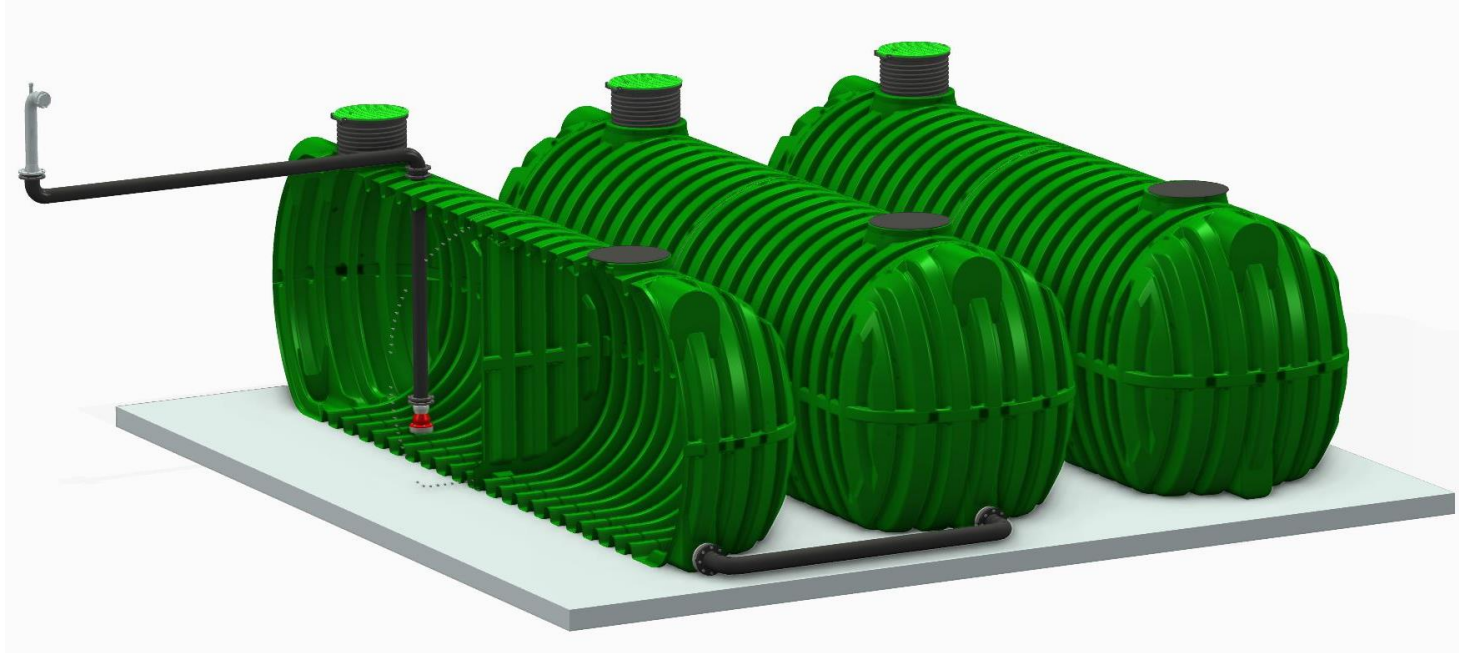

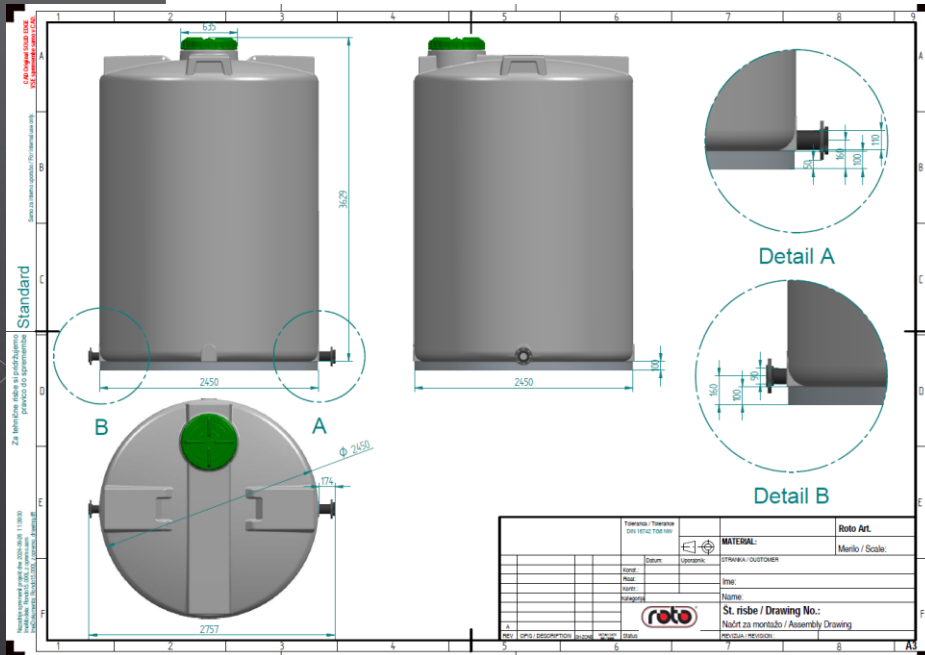

ROTO TECHNICAL SUPPORT

- Designer support
- Library for dwg and pdf
- BIM models
- <https://grabcad.com/project.ROTO-1>

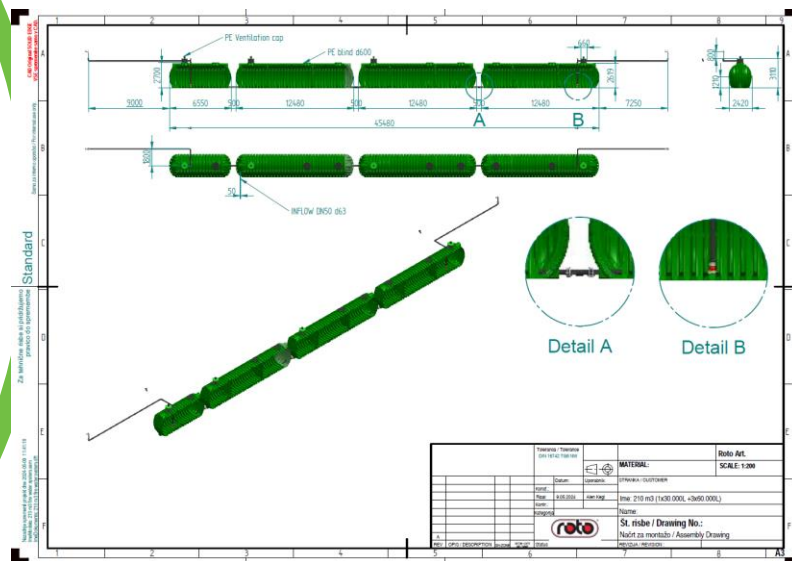

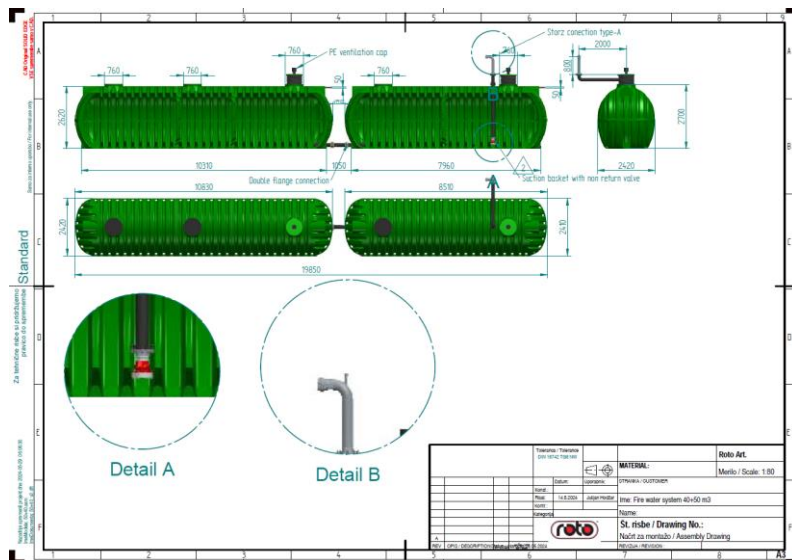

ROTO TECHNICAL SUPPORT

- Rondo 15.000L with accessories
- Additional flange connections

- 3 x 50.000 L Fire water system
- Suction pipe and basket

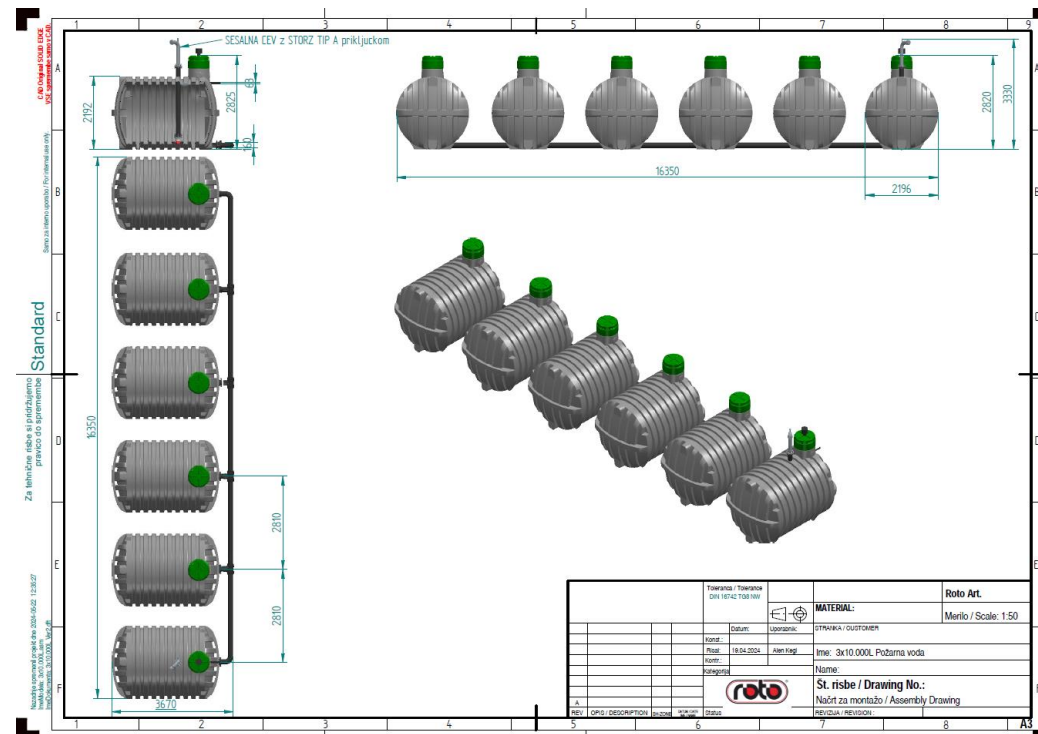

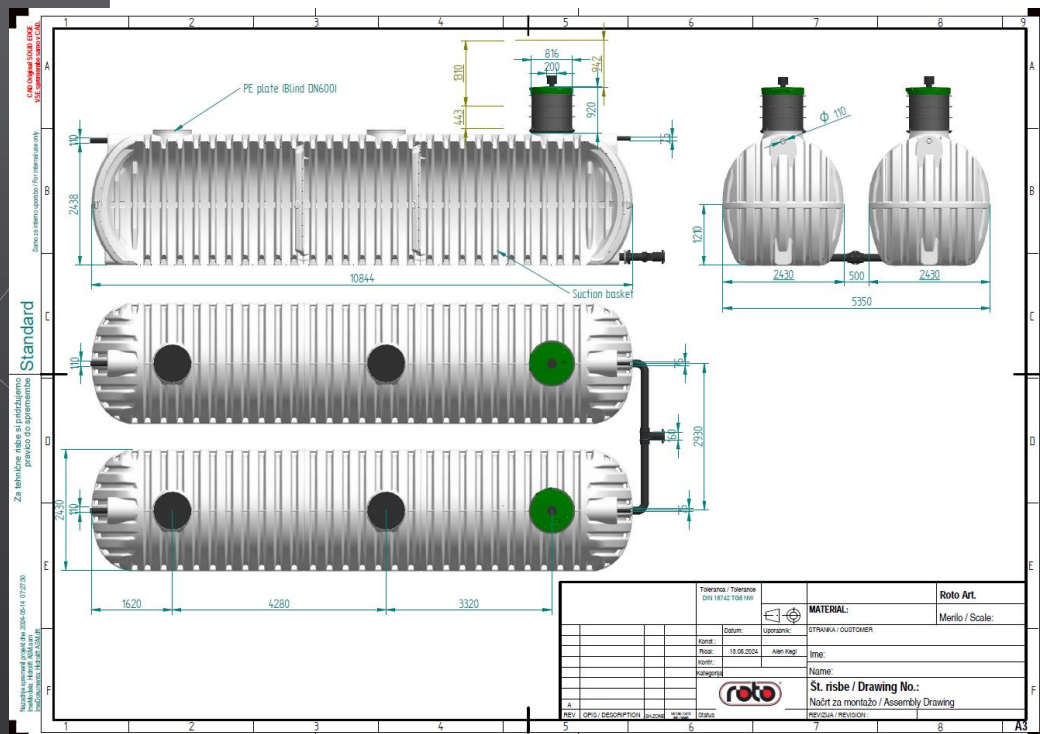

CUSTOM EQUIPMENT

- Filling valves DN25 – DN63
- Suction pipes
- Suction baskets
- STORZ Connections

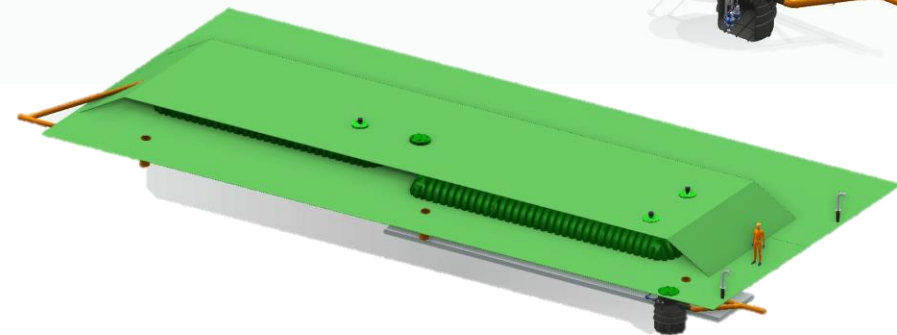

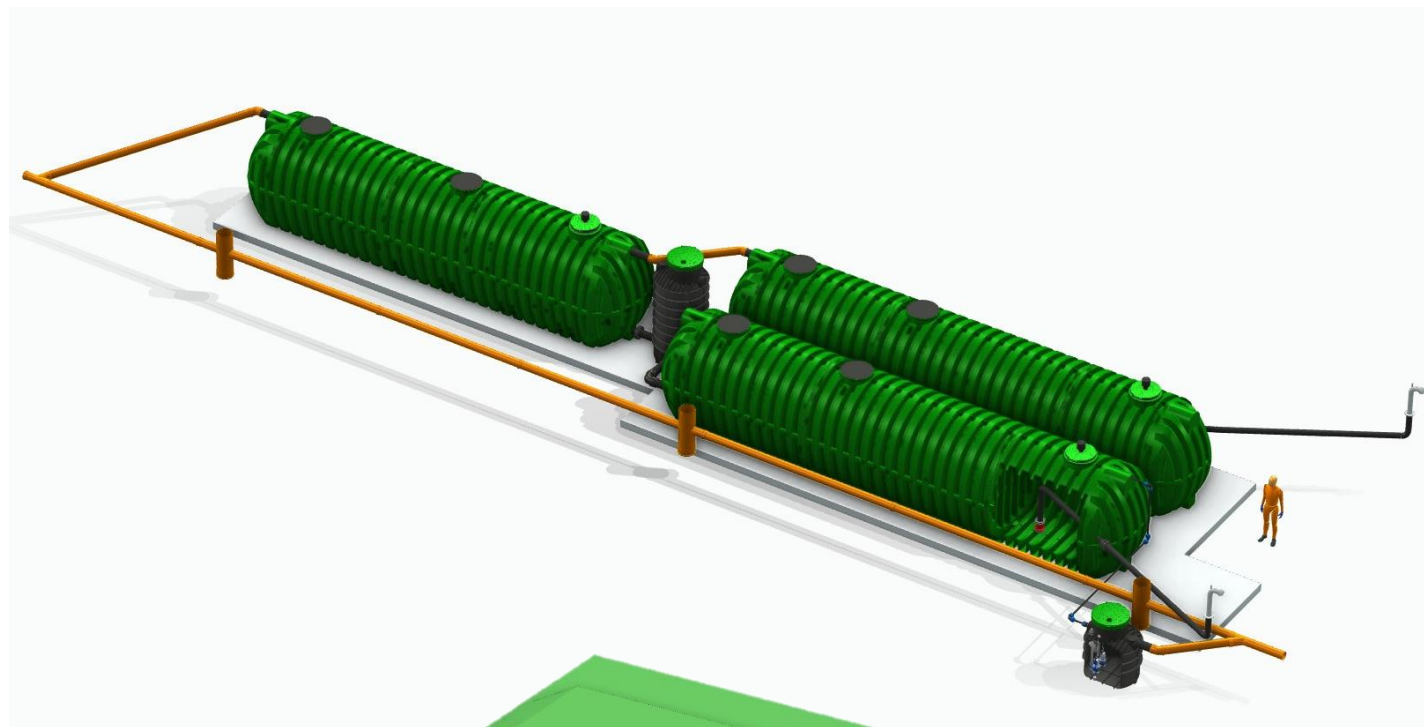

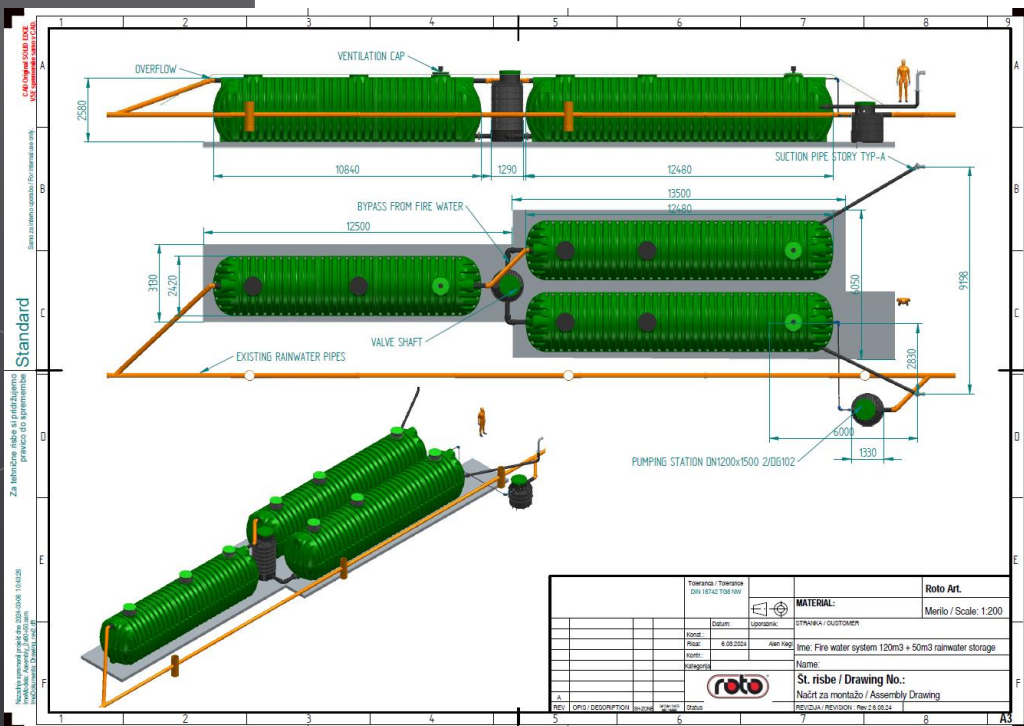

ROTO TECHNICAL SUPPORT

- RoDrink with connection to dry pumps
- Additional flange connections

- Connection of existing tanks to system
- 5 x parallel connection on terrain

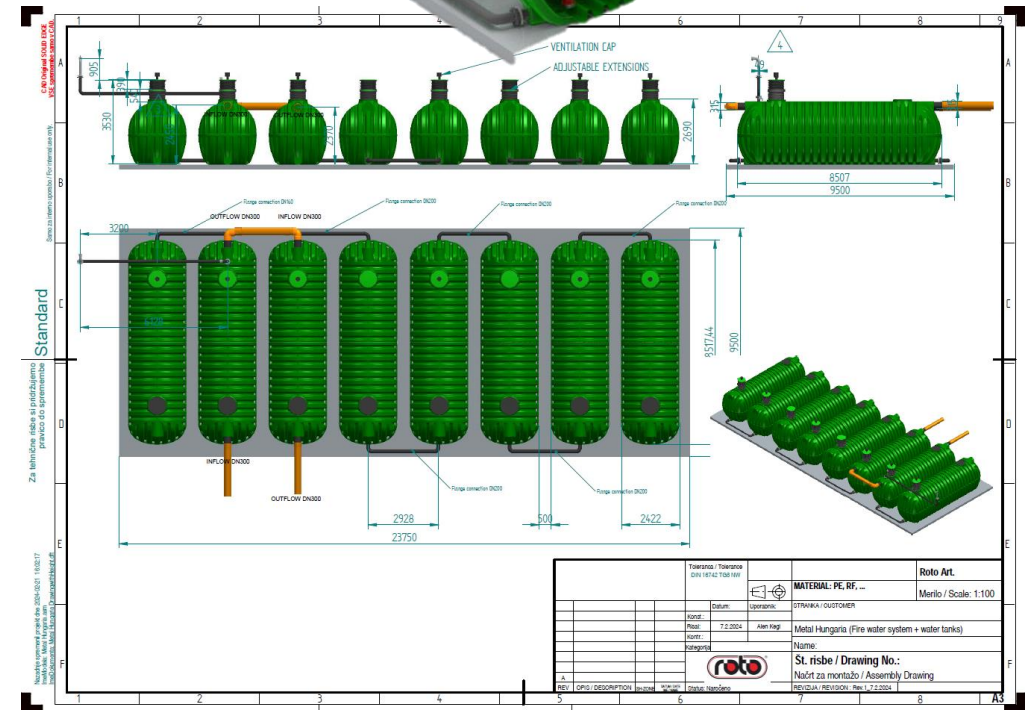

- HALF BURRIED SYSTEM due high groundwater
- System with knife gates for expansion of Fire water system

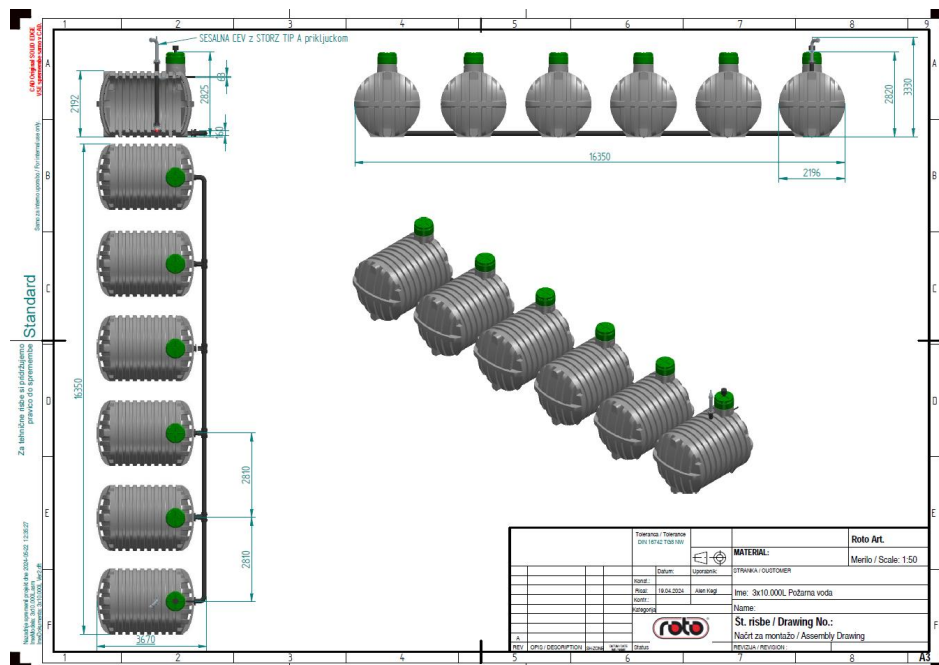

- Fire water and buffer tank system (8x50.000L)

- Additional equipment (filling valve, flanged connections, suction pipes, suction basket)

ROTO TECHNICAL SUPPORT

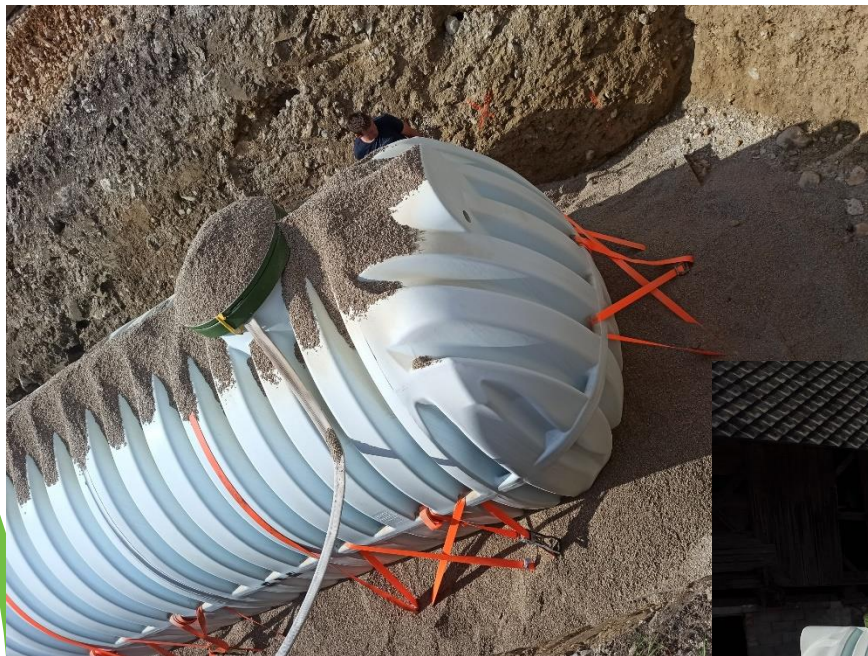

- Connection of existing „old“ tanks to new system of tanks
- 5 x paralell connection on terrain

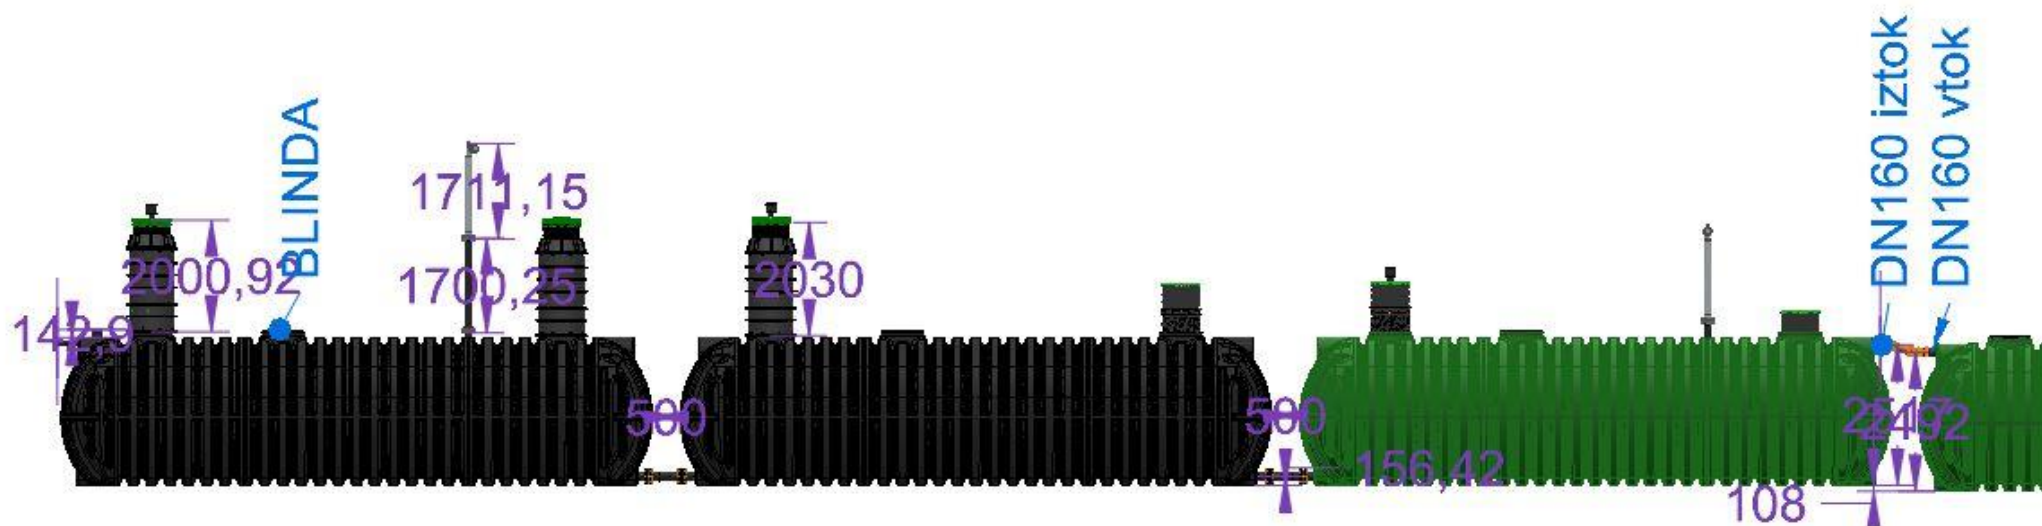

ROTO TECHNICAL SUPPORT

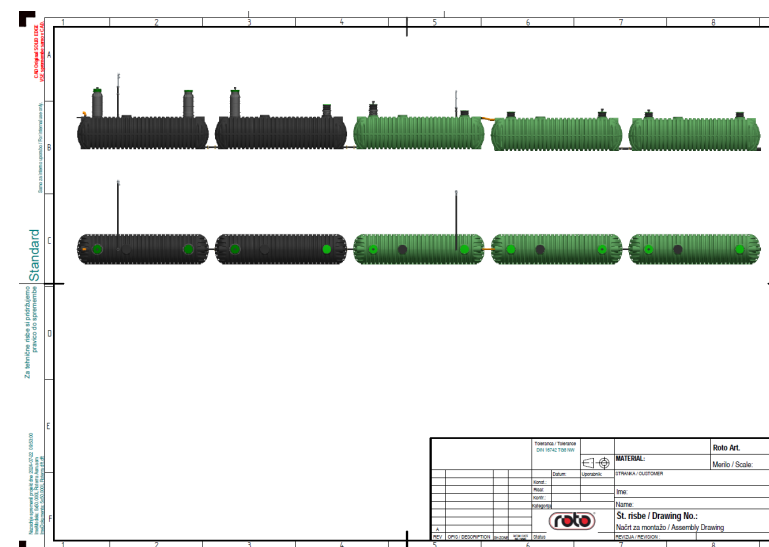

FIRST INSTALLATION OF RODRIVE IN 2022

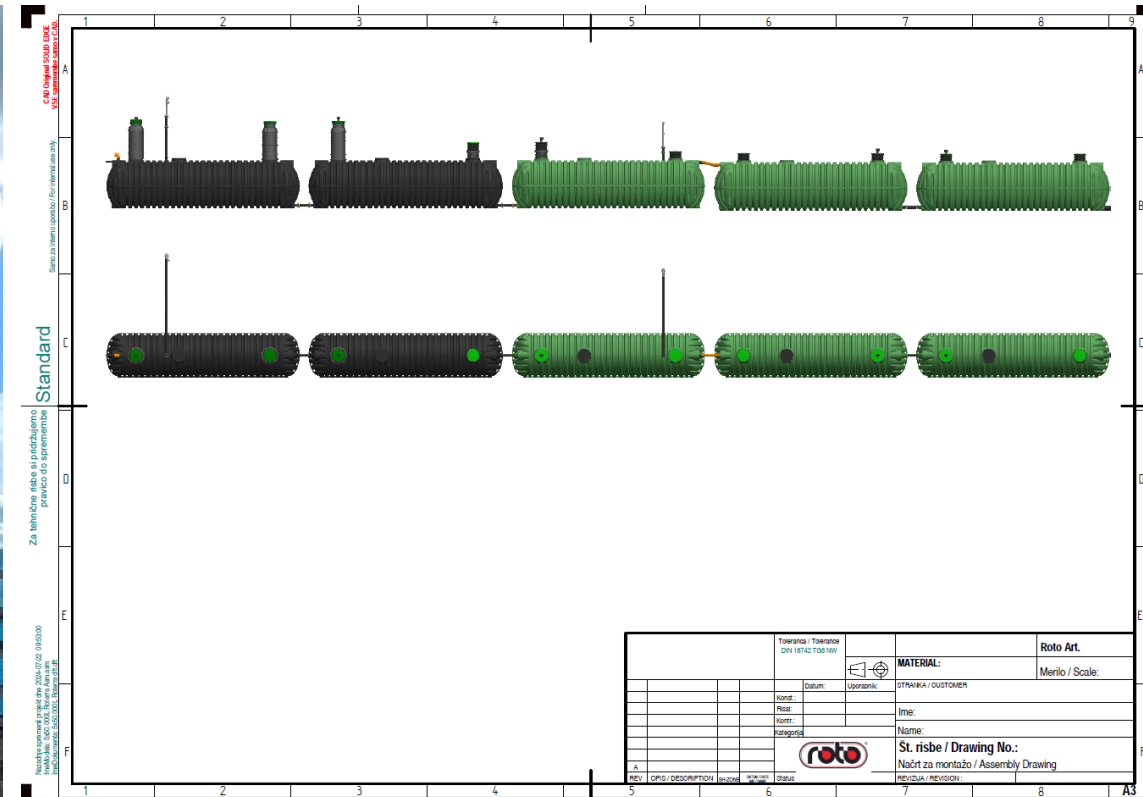

ROTO TECHNICAL SUPPORT

- Combination of RoDrive and Roterra tanks for Fire water application
- 4 x serial connection on terrain + pumping station at the end
- Project DK23, HUNGARY

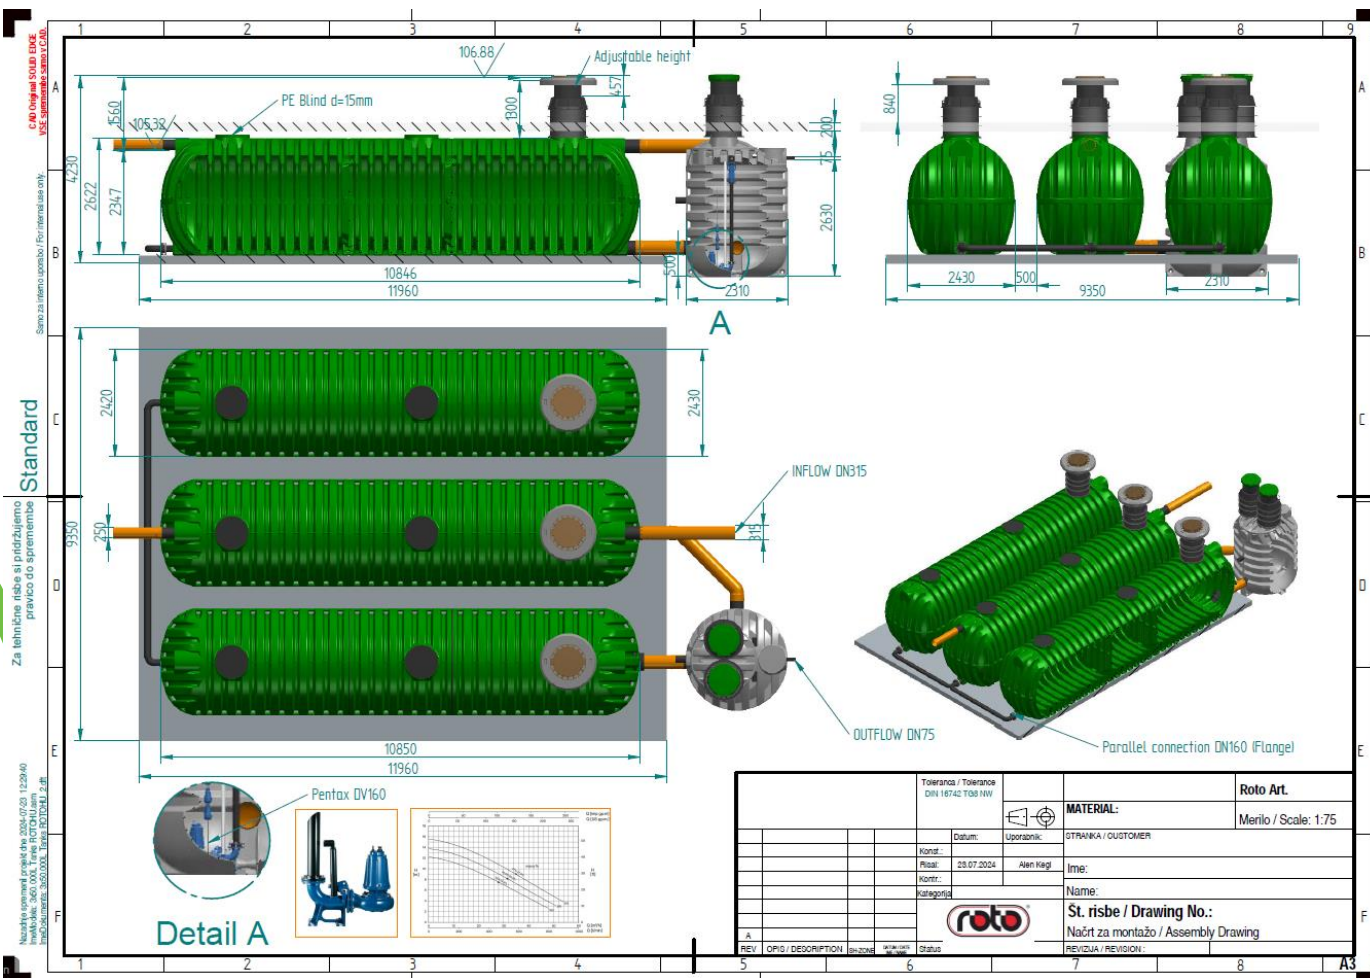

- RIGGING IN MOTION KFT, new building for flying props for Hollywood movies (Terminator, Robin Hood, Bladerunner)

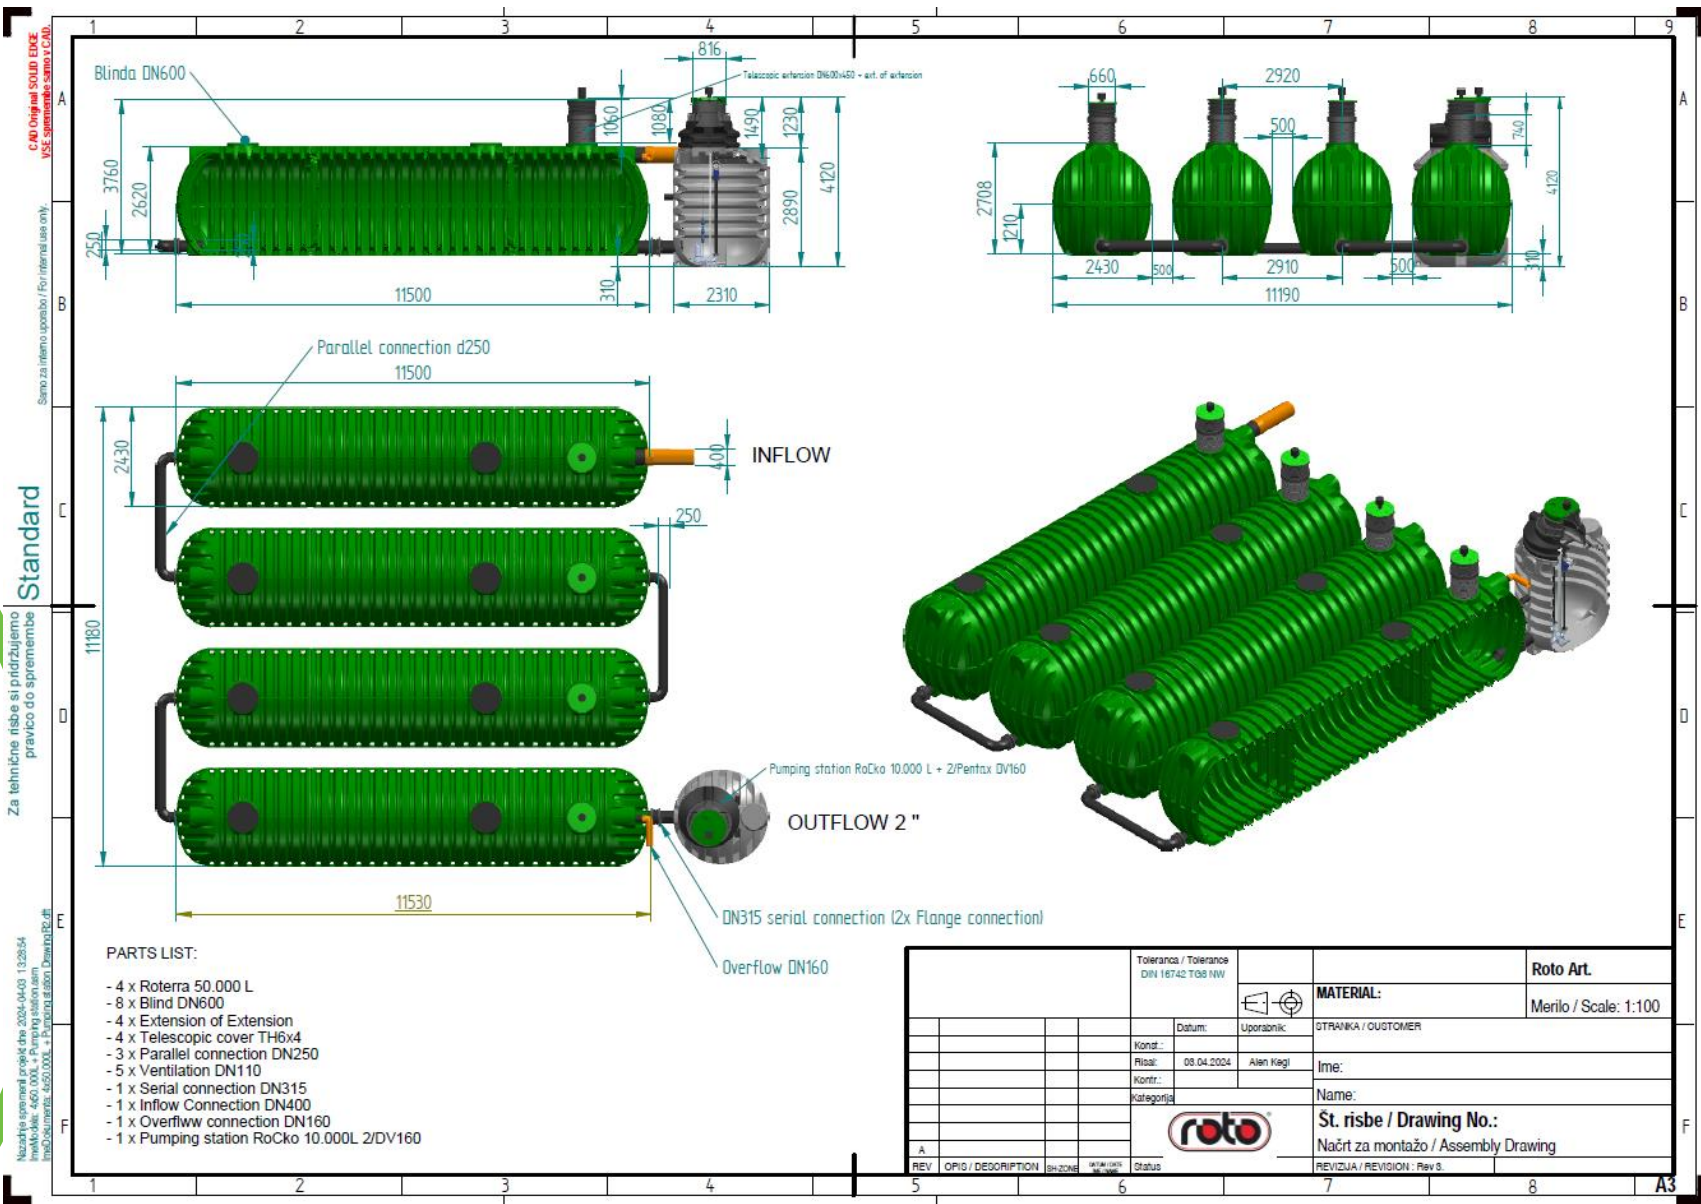

- 5 x 50.000 L Rodrive + Roterra and RoCko 10.000L Pumping station.

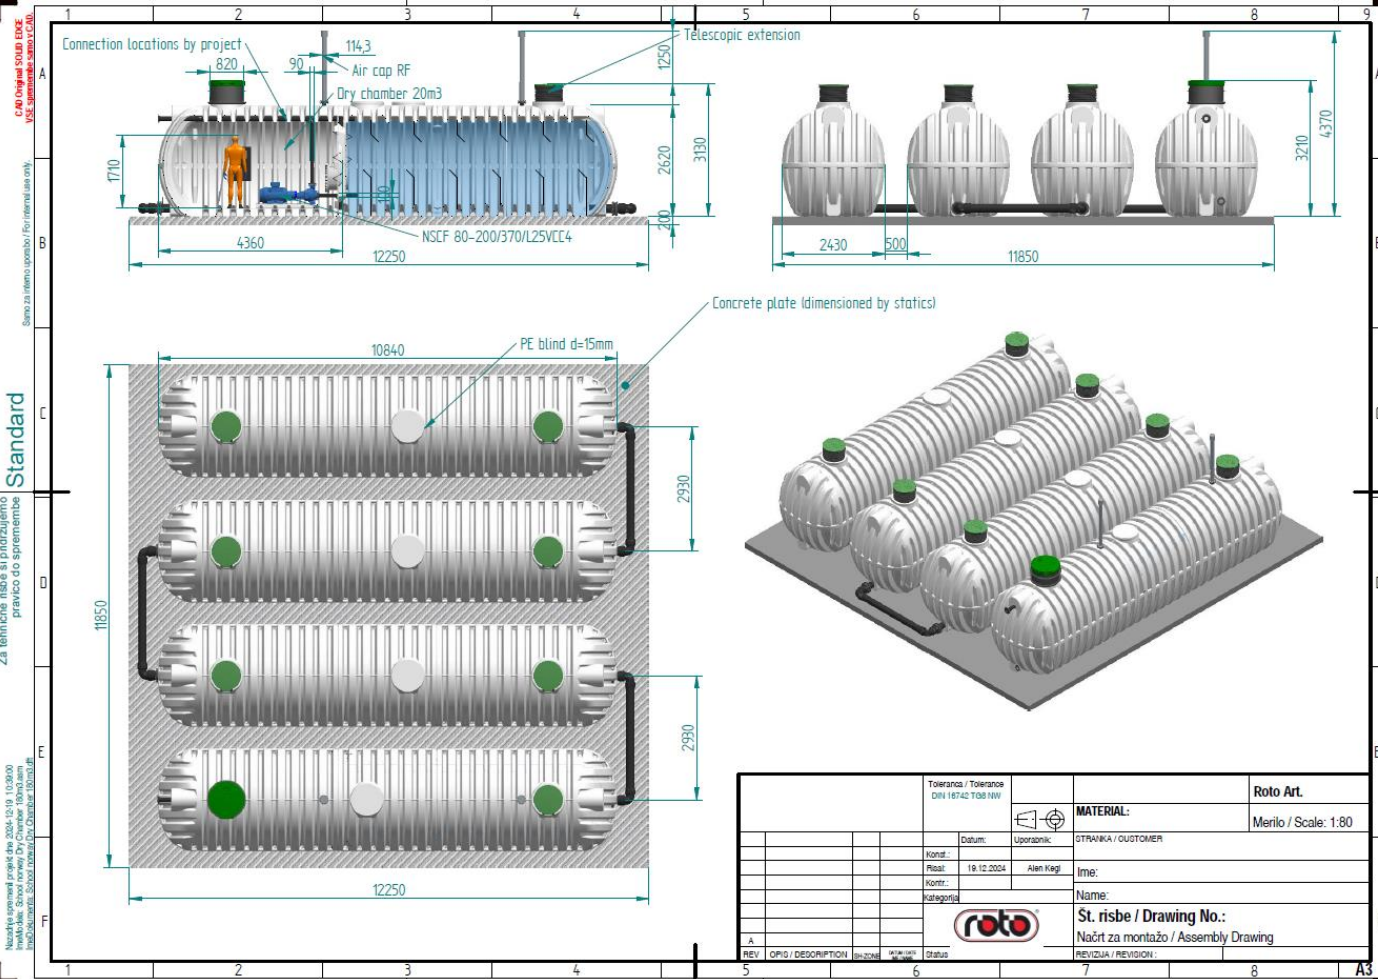

ROTO TECHNICAL SUPPORT

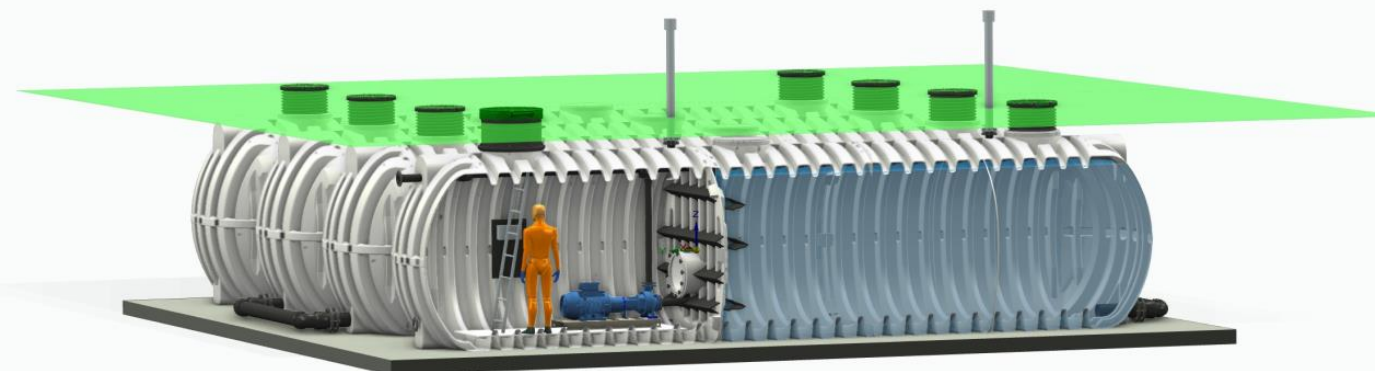

- Buffer tank system + pumping station
- 2 x parallel connectio
- Installation guides with renders for customer
- Installation under traffic surfaces

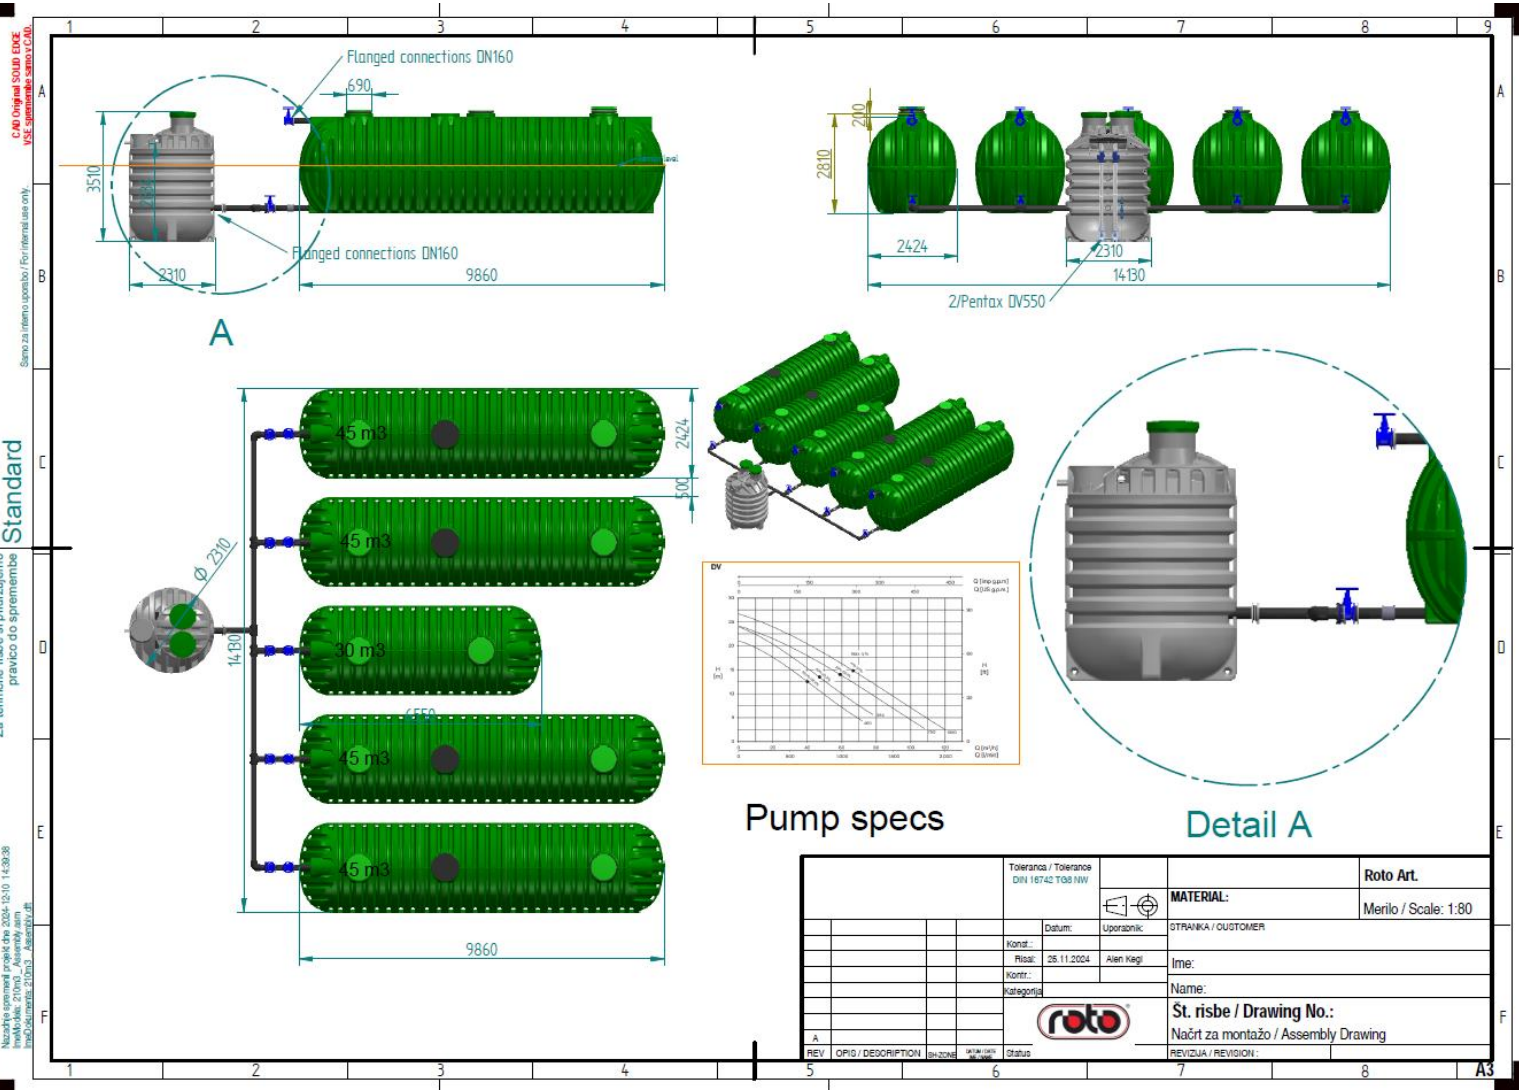

ROTO TECHNICAL SUPPORT

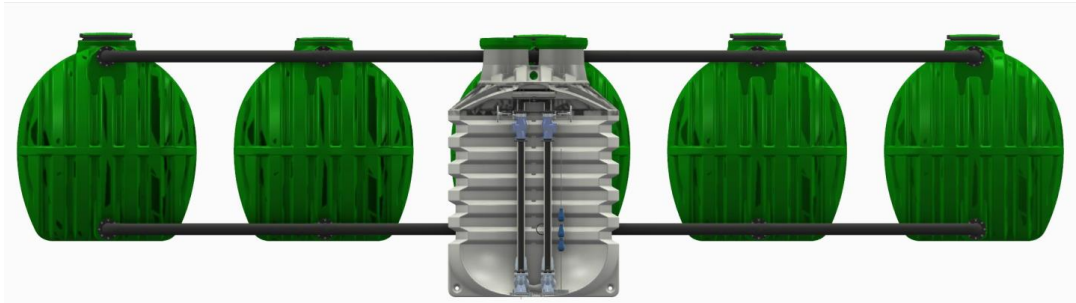

- SCHOOL IN NORWAY
- DRY CHAMBER WITH PUMPS FOR SPRINKLER SYSTEM

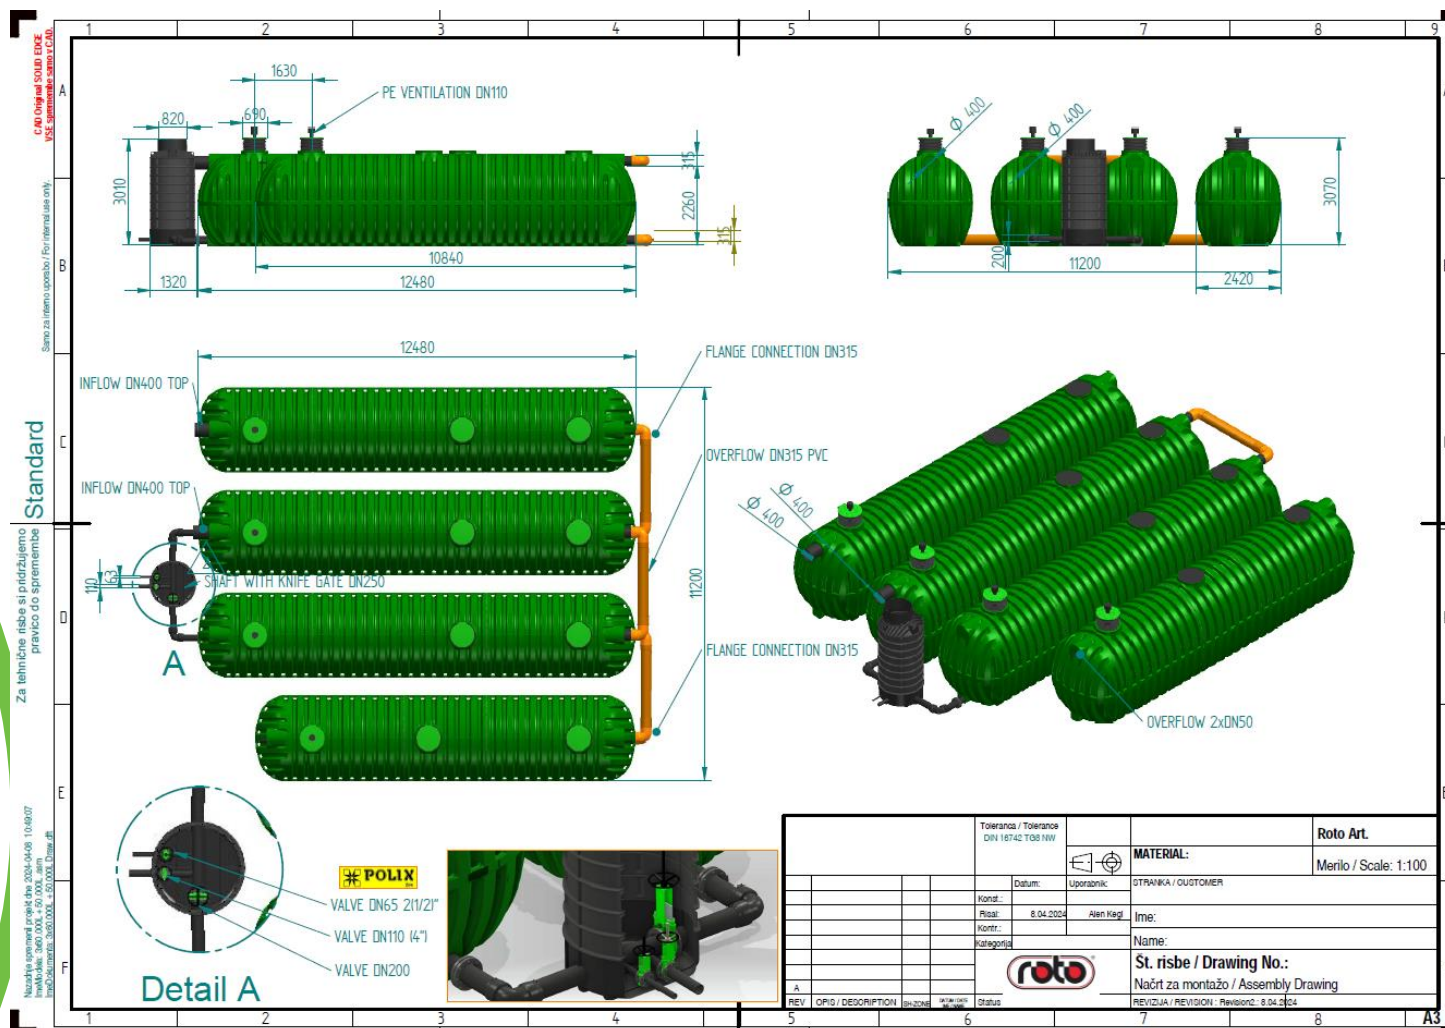

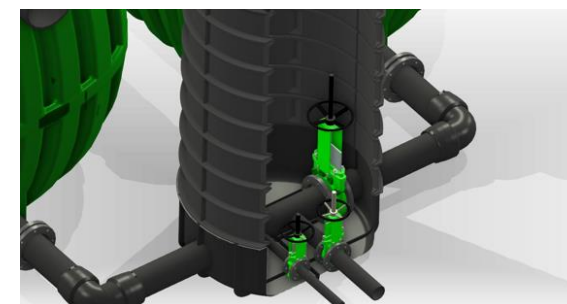

- BUFFER TANKS HUNGARY
- DELIVERED IN JAN. 2025

ROTO TECHNICAL SUPPORT
